Please read carefully the following warnings before you let Hat Kid play this video game!

CAUTION - Dangerous heights

Feeling like you can fly is cool, but it's all fun and games until you fall off the tallest building with no umbrella. Get a good look of your surroundings before jumping to ensure you are not a Hat-Pancake when you touch the ground.

WARNING - Meat rollers

A 2 tonne rolling pile of meat is a serious matter, especially when a Mafia goon is controlling it. Try to stay out of their way by running or dodging into the nearest bush so you do not become ground beef!

WARNING - Jumping into lava

Self explanatory really but kids will be kids and do silly things. If you feel the urge to let Hat Kid jump into some lava, remember it is very hot and **MOLTEN LAVA** levels of dangerous.

WARNING - Mustache Girl's attitude

Don't let it get to you, she's a big meanie with a mustache!

Hope you brought your dancing shoes, cause this funky penguin is heating up the dance-floor with his moves!

This guy claims to be a "Bird" but when's the last time you saw a bird that looks like that?! He's obsessed with winning...the receptionist just goes along with it.

Moon residents

Life on the moon is never boring with these guys! A+ troublemakers.

The Goats

Mysterious creatures who are the silent type. They like to be left alone but maybe they just want me to stop annoying them..

Travellers

Much more talkative! These guys also ended up in the skies..I wonder why?

Lazy Paw Gang

Very rude felines who keep stealing my hats!!! Ever heard of asking politely??

Badge Seller

Not sure where they came from or how they got on this planet but they're a lil...twitchy. They also have magical badges I can buy.

C.A.W Agents

These guys won't give me a break! All they do is keep asking me questions and hoot at me! Bad detectives.

Rumbi

My trusty robot vacuum!! He's very responsible and cleans my spaceship! + is my unwilling transport service.

Controls

Ever since I arrived on this planet I've noticed people playing video games in so many ways! They even use bongo drums (?!). Must be a human thing...

Over the next few pages I can show you how to play with the basics.

If the controllers you see aren't your cup of tea, no worries!
We give you the option to add in any controller you want.

Need to find a specific controller set up?

In the strong chance that bongo drums are not natively supported, you can go to the Steam Workshop page to find what you need. We're here to help!

My Moves

Walk / Run

Hold any of the directional keys (**WASD**) to move! I bet you already knew that.

Jump

Press the **SPACEBAR** to jump. If you want to go even higher, press again mid jump to do a double jump!

Crouch

Sneak up on your enemies (or hide from them...) with **CTRL**. Trying to be stealthy can be hard with the hat...

Dive

I can swoosh through the air like a plane! Crash like one too... While jumping, hit **CTRL** to dive, or if you're crouching, hit **SPACE**!

Swimming

Take a deep breath and take the plunge! Who needs a swimsuit?!

Wall Jump

Handy for getting out of a tight situation! Jump onto a wall and press **SPACE** to start wall jumping!

Picking up items

Pick up items with the **E** key. You can then either throw it with **LEFTCLICK** or drop it with **CTRL**.

Umbrella attack

Not just for a rainy day, my umbrella packs a punch! Use it by pressing **LEFTCLICK** and show them who's the boss! (Hint: that's me.)

Homing attack

You can do a homing attack in mid-air! Once you see the prompt, use the **LEFTCLICK** to fly at enemies and bonk them on the head!

Hats

Hats are not only incredibly stylish, they allow me to access some sweet power ups! You gotta find yarn to stitch me some new styles. Here's a few of 'em!

Hat collection

Kid's Hat

My pride and joy! Extremely handy in a pickle. Get lost/stuck? It'll help you out.

Sprint Hat

There's no time for loitering, I have timepieces to find! This hat speeds up the process.

Brewing Hat

Fire burn and cauldron bubble...I can unleash my magical potential! By blowing up stuff!

Ice Hat

Brrr...suddenly got more chilly around here! With this cozy hat I can turn into a big ol' block of ice. Rock solid!

+ many more!

Badges

Once I have the hats, I can make them even more powerful with badges! I can equip up to 3 badges, so there's many ways to change your playthrough!

No Fall Damage

Gain the power of flight! Well not really, but you get to hover in the air for quite awhile! Same thing right?

Camera

Document your adventure with this snazzy camera! Snap a few pics and choose from many filters (and turn the flash off!!!).

Hookshot

Very handy badge! I can swing around and find new areas. Good thing I'm not scared of heights..

Scooter

Running can sure get tiring after awhile. Fortunately with this badge I get my own super scooter! Beep beep.

...and many more!

UI

hey it's
me!

Life bar

Pretty important because I really like being alive!
(Don't kill me pls)

Time Pieces

The Time Pieces belong to me, and are the reason I'm doing this in the first place! The number on the bottom tells you how many I've collected on my quest. I wonder... how many will I need to get home...?

Pons

These lil things allow me to buy all sorts of stuff! They're very valuable and hard to open... There's other types of pons in the game too! So round and shiny...

Menu

EQUIPMENT

Here you can see the hats you have, and the general items you have collected.

BADGES

I can only put on 3 at a time (my hat isn't THAT big) so this section helps you organise them.

WEAPON

This slot is reserved for my trusty umbrella! Without it I'm toast...

CONTRACT

I keep my contracts safe and sound in this section. I also use it to remind yourself what I've gotten myself into with the Snatcher in Subcon...

Your backpack is important for keeping all your collectibles safe and sound! Which reminds me..

Collectibles

Time Pieces aren't the only things you can find out there! Here's a few more...

Storybooks

Scattered in the Cave Rifts, there are pages to collect that complete a bigger story. They don't have any words in them; that's my kinda book!

Roulette token

Kaching! These tokens can be used on the Roulette wheel, which is explained on the next page. They're tricky to find, so gamble responsibly!

Yarn

My hats are nothing without these! In order for me to stitch hats, I need to collect yarn, which is all over the place.

Relics

Mysterious relics of my journey appear in every destination, as a token of my trip. I wonder where I can display them..

The Roulette

Once you finish Time Rift stages, you can claim prizes! These range from hats, color palettes and music remixes that can be played anytime!

You can also unlock the roulette by collecting tokens in the general game! More chances to win.

By obtaining color palettes as prizes for finishing the Time Rift stages, you can alter my outfit and hair color. I'm quite the trend-setter!

WORLDS

In order to go back home I must retrieve the Time Pieces to power my ship once again.

By acquiring Time Pieces I can re-gain access to my rooms, giving me access to more worlds to investigate!

Mafia Town

A place ruled by the Mafia Boss and his band of thugs. While it looks pretty and sunny, it smells like sweat and rotten fish!

Subcon Forest

I can't shake the feeling that I'm always being watched while I walk around this creepy forest...

Time Rifts

Some of the Time Pieces didn't land well, they crashed and smashed right open! This creates Time Rifts, large portals with challenges. They need to be cleared in order to restore the Time Piece to its original state!

A few Time Pieces even crashed into people, causing those Time Rifts to be themed around them!

Custom Stages

The stages don't stop once you've completed the game, as there's a whole other world out there of custom stages and modifications! Check them out if you can!

Dead Bird Studio

Lights! Camera! Action! The sets are huge... It even has a jazz town and a train! I've always wanted to be a star.

Alpine Skyline

A mysterious civilization high in the clouds. Don't look down!!

From all of us at Gears for Breakfast,
Thanks for playing!
